and much more!

### DocuSign – One Step Better with Eltropy

Take Member  
experience  
to a whole  
new level.

## Faster, Economical, Safer and Better.

### Reduce Cost

By Combining Text with DocuSign, your team can reduce costs per transaction by decreasing paper generation and operating costs.

### Increase Productivity

Offset as much as 90% of cumbersome administrative labor around paper, saving more than \$10 per individual transaction.

### Strengthen Security and Compliance Position

Using Text with eSign Remote connector helps financial institutions meet compliance requirements by controlling the signing process and ensuring all information remains secure.

### Speed and Efficiency

Experience faster response times, enhanced user experience, and greater efficiencies by enabling account holders to open new accounts and start loans within minutes.

### Cut Document Errors

Forbes Insights stated, "Inability to confirm that forms have been signed by appropriate parties can lead to auditing or compliance issues. 55% of business leaders say they can't tell whether documents have been viewed, reviewed or signed by the appropriate people. 46% say they aren't sure they have copies of all signed agreements and 36% have stated that agreements are missing signatures, initials or dates, or have been signed by the wrong person".

## Be More Accessible

Enable members to sign documents without visiting the Branch

- When documents are ready, the credit union will Text the members a link to sign.
- Members go through Eltropy's 2-Factor Authentication to verify identity.
- Once a member's identity is verified, the member will be guided through the process of creating an electronic signature.
- With an electronic signature created, members can go through the document and click to electronically sign and initial. Once the member clicks confirm, both member and credit union will receive the signed document via Text.

DocuSign Completed
